## Details about Avocado Oil organic

### Description

Avocado oil is a green rich oil with characteristic smell of avocado fruits. The special oil is gained from the whole avocado fruit.

### Special Characteristics

Avocado oil has an exceptionally high content of fat accompanying substances and contains the rare palmitoleic acid

### Application Cosmetics

Avocado oil has a very high spreadability and is easily absorbed by normal or rough skin. That is why avocado oil is often used in creams and lotions.

Avocado oil is moisturising, soothes itching and helps fight infections. The oil facilitates cell building and skin regeneration and activates the main substance of the supporting tissue.

Avocado oil is good for overfating of soaps and produces a fine and creamy foam.

The nurturing properties of our Avocado oil were confirmed in a cosmetic study by Dr. Hauck R [ & ] D GmbH in October 2015. The results may be requested from us.

### Application Food

Avocado oil has versatile uses in the kitchen.
